**Date:** 2/20/2015  
**Re:** 200 Block of Meriwether Street

---

I have attached the before and after lay out of the parking configuration. Last fall Gary Betz contacted our office and talked to Chris Walker about the parking issue on Meriwether Street where he just had established a new business and moved in.

He voiced his concerns about the parking on the north side of Meriwether Street and stated if you had a passenger in your vehicle parking there, the passenger could not exist the vehicle due to the curb height.

This was not a long drawn out issue. 7 parking spaces on Meriwether did not allow passengers to exist their vehicle, Additionally the same thing occurs on the southeast corner of 9<sup>th</sup> and Meriwether due to curb height.

As a response to the business which had just moved in and his concern for his customers parking and being able to get out of their vehicles.
