Reason for the Nomination

Using the program criteria, explain in detail why the employee deserves to be recognized as the *Strongest Link in the Chain*. Use a separate sheet if necessary.

Over the course of the last 12-months the City of Griffin Water and Wastewater department has undergone some growing pains. The department has seen everything from being shorthanded due to staffing constraints to re-permitting of the Potato Creek Wastewater Plant expansion. Regardless of the issue at hand, Mr. Cook is always willing to step up and take the challenge put in front of him. After having a superintendent unexpectedly resign, Mr. Cook stepped in to fill the role as interim superintendent at that particular facility in addition to his daily task of running the Potato Creek plant. His vast knowledge and experience in the wastewater arena has been instrumental in the success of re-permitting the plant expansion. Because of his tireless dedication to the vetting of specified equipment within the expansion project, he has steered the design team to a cost effective and sustainable plant design that will best suit the City of Griffin and the existing plant personnel.
