Dick Morrow
District 5 Commissioner
100 S. Hill Street
Griffin, GA

July 20, 2016

Dear Mr. Morrow,

I am contacting you in writing regarding our brief meeting at my residence this week about the trash dumpster that has been placed on our street. I, along with the other residence of Pleasant Avenue are profoundly upset that this has happen and we ask that you see to it being removed.

My family and I have been a resident of this neighborhood for almost 25 years and we have never had to deal with this eye soar. I have reached out to the waste management department to no avail. And I have also spoken with the surrounding residence and we all are at our wit's end with this.

We are prepared to come to the commission meeting to voice our opposition to this dumpster that has ultimately downgraded our neighborhood and also causes an early morning disturbance when the trucks stop in the early morning for pick up.

I am confident that after our conversation, you will be able to rectify this issue that we are having and restore the peace back to our neighborhood.

I look forward to hearing from you soon.

Walter F. Dallas
