ARTICLE II CERTAIN OBLIGATIONS OF THE AUTHORITY AND THE ADDITIONAL UNITS PPA-2 PARTICIPANT

SECTION 201. THE PLANT VOGTLE ADDITIONAL UNITS PPA-2 PROJECT ANNUAL BUDGET.

The Authority shall prepare and submit to the Additional Units PPA-2 Participant a Plant Vogtle Additional Units PPA-2 Project Annual Budget at least ninety (90) days prior to the beginning of each Power Supply Year during the term of the Plant Vogtle Additional Units PPA-2 Project. Such budget shall show separately (i) the Plant Vogtle Additional Units PPA-2 Project Annual Fixed Costs, and (ii) the Plant Vogtle Additional Units PPA-2 Project Other Annual Costs. The Additional Units PPA-2 Participant may then submit to the Authority, at any time until such budget is adopted, any matters or

suggestions relating to such Budget that the Additional Units PPA-2 Participant may care to present and the Authority shall give due consideration to said matters or suggestions. The Authority shall then proceed with the consideration and adoption of such Plant Vogtle Additional Units PPA-2 Project Annual Budget not less than thirty (30) nor more than forty-five (45) days prior to the beginning of such Power Supply Year, and shall cause copies of such adopted Plant Vogtle Additional Units PPA-2 Project Annual Budget to be delivered to the Additional Units PPA-2 Participant; provided, however, that the Plant Vogtle Additional Units PPA-2 Project Annual Budget for the first Power Supply Year shall be prepared, considered, adopted and delivered in the most practicable manner available in the discretion of the Authority. As required from time to time during any Power Supply Year after thirty (30) days' notice to the Additional Units PPA-2 Participant, the Authority may adopt an amended Plant Vogtle Additional Units PPA-2 Project Annual Budget for and applicable to such Power Supply Year for the remainder of such Power Supply Year.

SECTION 202. REPORTS.

The Authority will prepare and issue to the Additional Units PPA-2 Participant the following reports during each Power Supply Year of the Plant Vogtle Additional Units PPA-2 Project:

- (1) Financial and operating statement relating to the Plant Vogtle Additional Units PPA-2 Project on a quarterly basis;
- (2) Status of the Plant Vogtle Additional Units PPA-2 Project Annual Budget on a monthly basis commencing as of the date that the Authority first submits a Plant Vogtle Additional Units PPA-2 Project

Billing Statement to the Additional Units PPA-2 Participant pursuant to Section 307 hereof;

(3) Status of the construction budget of the Plant Vogtle Additional Units PPA-2 Project during construction on the same basis that such reports are received by the Authority or the PPA-2 Project Entity; and

(4) Analysis of operations relating to the Plant Vogtle Additional Units PPA-2 Project on a monthly basis commencing as of the date that the Authority first submits a Plant Vogtle Additional Units PPA-2 Project Billing Statement to the Additional Units PPA-2 Participant pursuant to Section 307 hereof on the same basis that such reports are received by the Authority or the PPA-2 Project Entity.

SECTION 203. RECORDS AND ACCOUNTS.

The Authority will keep, and will cause the PPA-2 Project Entity to keep, accurate records and accounts of the facilities comprising the PPA-2 Project Entity's Ownership Interest and of the operations of the PPA-2 Project Entity's Ownership Interest in accordance with the Uniform System of Accounts. Said accounts shall be subject to the Authority's annual audit by a firm of independent certified public accountants experienced in electric utility accounting and of national reputation to be submitted to the Authority within one hundred and fifty (150) days after the close of each Power Supply Year. All transactions of the Authority and the PPA-2 Project Entity relating to the Plant Vogtle Additional Units PPA-2 Project with respect to each Power

Supply Year shall be subject to such an audit. A copy of the Authority's annual audit shall be provided to each Additional Units PPA-2 Participant.

SECTION 204. ADJUSTMENT OF BILLING.

(a) At the end of each Power Supply Year, the Authority shall determine if the aggregate amount paid by the Additional Units PPA-2 Participant under this Contract to provide recovery of all the Authority's Plant Vogtle Additional Units PPA-2 Project Annual Fixed Costs and Plant Vogtle Additional Units PPA-2 Project Other Annual Costs during such Power Supply Year was in the proper amount. Upon making such determination, any amount found to have been paid by the Additional Units PPA-2 Participant in excess of the amount that should have been paid by the Additional Units PPA-2 Participant shall, at the election of the Authority, either be paid to the Additional Units PPA-2 Participant, or credited on the Plant Vogtle Additional Units PPA-2 Project Billing Statements to the Additional Units PPA-2 Participant for the remaining month or months of the Power Supply Year next succeeding the Power Supply Year for which such adjustment was determined to have been necessary. The Additional Units PPA-2 Participant must be fully compensated for any over recovery by the end of such next succeeding Power Supply Year either as the result of credits, payments or a combination thereof. The amount of any deficiencies shall be added to the Plant Vogtle Additional Units PPA-2 Project Billing Statements in equal installments over the remaining month or months of the Power Supply Year next succeeding the Power Supply Year for which such adjustment was determined to be necessary. In the event that the failure of an Additional Units PPA-2 Participant to pay any amounts due under its Contract shall have resulted in the application of amounts in any reserve or working fund to the payment of

costs payable from such reserve or working fund and the other Additional Units PPA-2 Participants shall have made up the deficiency created by such application or paid additional amounts into such reserve or working fund, amounts, including interest, thereafter paid to the Authority by such non-paying Additional Units PPA-2 Participant for application to such past due payments shall be credited on the Plant Vogtle Additional Units PPA-2 Project Billing Statements of such other Additional Units PPA-2 Participants in the next month or months as shall be appropriate.

(b) At its election, the Authority may establish a policy for making monthly, quarterly or semi-annual retroactive adjustments to the Additional Units PPA-2 Participant's billings to account for variances between the billed amounts and the actual costs incurred during the respective period in order to avoid large cumulative adjustments at the end of the Power Supply Year under subsection (a) above. Such intra-year adjustments are not to be used to avoid a budget amendment when there are material changes affecting the remaining months of the Power Supply Year.

(c) Upon expiration of the PPA-2, the Authority shall have the discretion, subject to the concurrence of a sufficient number of Additional Units PPA-2 Participants whose total Obligation Shares in the PPA-2 Project exceed 66 2/3 percent, to apply any excess amount (as described in subpart (a) hereof), or portion thereof, for the purpose (i) of purchasing, redeeming or defeasing PPA-2 Bonds in advance of maturity or (ii) of retiring by prepayment Advances, in each such case, in such manner as the Authority may determine, and in such event the Authority will reduce such elements of the Plant Vogtle Additional Units PPA-2 Project Annual Costs as are necessary and appropriate to reflect such accelerated retirement.

SECTION 205. DISPUTED MONTHLY PLANT VOGTLE ADDITIONAL UNITS PPA-2 PROJECT BILLING STATEMENT.

In case any portion of any monthly Plant Vogtle Additional Units PPA-2 Project Billing Statement received by the Additional Units PPA-2 Participant from the Authority shall be in bona fide dispute, the Additional Units PPA-2 Participant shall pay the Authority the full amount of such Billing Statement. Upon determination of the correct amount, the difference between such correct amount and such full amount, if any, will be credited to the Additional Units PPA-2 Participant by the Authority after such determination. In the event such Billing Statement is in dispute, the Authority shall exercise due diligence in considering such dispute and will advise the Additional Units PPA-2 Participant with regard to the Authority's position relative thereto within thirty (30) days following written notification by the Additional Units PPA-2 Participant of such dispute.

SECTION 206. RESALE COVENANT.

So long as the Authority has tax exempt PPA-2 Bonds or Build America Bonds outstanding, the Additional Units PPA-2 Participant agrees that it shall not, without the express written consent of the Authority, enter into any contract pursuant to which a non-exempt person agrees to purchase power produced by the Plant Vogtle Additional Units PPA-2 Project in a manner that results in private business use within the meaning of the Internal Revenue Code of 1986, as amended, modified or re-enacted (or any successor thereto) (the "Code"). For purposes of the preceding sentence, "non-exempt person" shall mean any entity that is not a state, territory or possession of the United States, the District of Columbia or any political subdivision thereof.

SECTION 207. TAX COVENANT.

The Additional Units PPA-2 Participant hereby covenants that it shall take no action, nor shall it consent to or approve the taking of any action, that would in the opinion of the Authority adversely affect (a) the exclusion from gross income for federal income tax purposes of the interest on the PPA-2 Bonds of any series the interest on which is intended to be so excluded or (b) the eligibility of the Authority to receive cash subsidy payments from the United States Treasury equal to a portion of the interest payable on any Build America Bonds. In furtherance thereof, the Additional Units PPA-2 Participant shall provide information reasonably requested by the Authority regarding compliance with the Code, including providing an appropriate certification that it has complied fully with the provisions of this tax covenant.

ARTICLE III ELECTRIC POWER AND ENERGY FROM THE PPA-2 PROJECT ENTITY'S OWNERSHIP INTEREST

SECTION 301. OWNERSHIP AND OPERATION OF THE PPA-2 PROJECT ENTITY'S OWNERSHIP INTEREST.

The PPA-2 Project Entity will acquire and own, and the Authority will issue PPA-2 Bonds in series from time to time under or in accordance with the PPA-2 Bond Resolution or cause the PPA-2 Project Entity to receive Advances to finance, the PPA-2 Project Entity's Ownership Interest, and the Authority shall cause the PPA-2 Project Entity to operate, maintain, and manage the facilities of the PPA-2 Project Entity's Ownership Interest in accordance with Prudent Utility Practice. The Authority may also, at its discretion, enter into Qualified Hedging Contracts relating to such PPA-2 Bonds and Advances or other appropriate transactions.

Except as provided in the following sentence, this Contract and the other Contracts, on the one hand, and the PPA-2 Project Entity Power Purchase Agreement, on the other hand, are intended to be “back-to-back” power purchase agreements during the term of this Contract and such other Contracts such that all of the output and services of the Plant Vogtle Additional Units PPA-2 Project shall be purchased by the Authority from the PPA-2 Project Entity pursuant to the PPA-2 Project Entity Power Purchase Agreement and resold to the Buyer, the Additional Units PPA-2 Participant and the other Additional Units PPA-2 Participants pursuant to the terms and conditions of the PPA-2 and the Contracts, and all Costs of Acquisition and Construction, Financing Costs, Plant Vogtle Additional Units PPA-2 Project Annual Costs and all other costs, fees, charges and amounts incurred by the PPA-2 Project Entity in connection with the Plant Vogtle Additional Units PPA-2 Project and billed to the Authority pursuant to the PPA-2 Project Entity Power Purchase Agreement shall be the obligation of the Additional Units PPA-2 Participants during the term of the Contracts, except as otherwise expressly provided herein (including, without limitation, the provisions of Section 302(a) hereof relating to the payment of Debt Service). Notwithstanding the foregoing, it is the current intention of the Authority that, following the repayment in full of the DOE Guaranteed Loan, including the payment of all interest, fees, charges, expenses and all other amounts from time to time due under or in connection therewith, and the satisfaction by the PPA-2 Project Entity of all of its obligations under the DOE Loan Guarantee Agreement and all other DOE Loan Documents and the termination of all lending commitments thereunder, the Authority will, subject to the occurrence of each of the conditions set forth in subsection 3 of Section 1101 of the PPA-2 Bond Resolution, reacquire from the PPA-2

Project Entity the PPA-2 Project Entity's Ownership Interest. In that event, upon written notice from DOE to the Authority confirming the repayment in full of the DOE Guaranteed Loan as aforesaid and the satisfaction by the PPA-2 Project Entity of all of its obligations under the DOE Loan Guarantee Agreement and all other DOE Loan Documents and the termination of all lending commitments thereunder, (a) the terms and provisions of this Contract relating to the DOE Guaranteed Loan shall, without further act, cease to be of any force or effect, (b) the PPA-2 Project Entity Power Purchase Agreement shall be terminated and (c) the Authority and the Additional Units PPA-2 Participant agree to amend this Contract in such manner as shall be determined by the Authority to be necessary or desirable in order to reflect the foregoing transactions, including, without limitation, an amendment to the definition of "Plant Vogtle Additional Units PPA-2 Project" set forth in Section 103 hereof in order to reflect the transfer to the Authority of the PPA-2 Project Entity's Ownership Interest and the termination of the PPA-2 Project Entity Power Purchase Agreement.

The Additional Units PPA-2 Participant shall be entitled to and shall take its Plant Vogtle Additional Units PPA-2 Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest in accordance with Sections 302 and 303 hereof. The Authority will cause to be delivered to the Additional Units PPA-2 Participant in accordance with Sections 302 and 303 hereof such of its Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest as the Additional Units PPA-2 Participant requires in order to serve the requirements of its electric distribution system during periods when such facilities are operating, unless the Authority determines

in accordance with this Section 301 that it is more economical to supply such amounts from other sources.

The Authority covenants and agrees that it will operate, maintain and manage the PPA-2 Project or cause the same to be operated, maintained and managed to attempt to achieve the best operating economics therefor in accordance with Prudent Utility Practice, and may sell such of the output to others as it determines, based upon such economic determination and consistent with Prudent Utility Practice and the terms of the PPA-2.

In addition, during any period of this Contract that the Additional Units PPA-2 Participant is entitled to the output and services of the PPA-2 Project Entity's Ownership Interest, the Authority may utilize its rights to such output and services to enter into transactions with others in accordance with Prudent Utility Practice, when such transactions are reasonably expected to result in economic benefits to the Additional Units PPA-2 Participants, including, but not limited to, (i) capacity sales and swaps, (ii) energy sales and swaps, and (iii) financial swaps, hedges and risk management contracts and (iv) reliability exchanges with other utilities.

The Additional Units PPA-2 Participant shall receive a credit from the Authority of its Obligation Share of the proceeds of all such transactions entered into as provided in Section 308(c) hereof.

SECTION 302. ADDITIONAL UNITS PPA-2 PARTICIPANT'S PAYMENT OBLIGATIONS AND ENTITLEMENT DURING THE INITIAL TERM.

(a) The Buyer, and not the Additional Units PPA-2 Participants (except as expressly provided below), is obligated to pay Debt Service during the Initial Term as specified in the PPA-2, and a copy of the PPA-2 has been provided to the Additional

Units PPA-2 Participant in substantially the form which will be provided to the Authority's Board for its approval. As reflected in the terms of the PPA-2, there are circumstances under which Buyer's obligation to pay Debt Service terminates prior to the completion of the Initial Term, including the following: (1) in the event of a delay of the Commercial Operation Date of either or both of the Additional Units which was anticipated (x) in the case of the Guaranteed Loan, as of the Effective Date and (y) in the case of any Series of PPA-2 Bonds, as of the date of issuance of such PPA-2 Bonds that causes the Authority to commence billing the principal and/or interest components of Debt Service on the DOE Guaranteed Loan or the PPA-2 Bonds of such series relating to the delayed unit or units prior to the Commercial Operation Date of such unit or units; and (2) during the time period commencing as of the twentieth anniversary of the Commercial Operation Date of the first unit and continuing until the end of the Initial Term, Buyer is not responsible for paying Debt Service on the PPA-2 Bonds and the DOE Guaranteed Loan pertaining to the first of the Additional Units. The Additional Units PPA-2 Participant shall be obligated to pay Debt Service during the Initial Term under these circumstances and any other circumstances which may arise where the Buyer is no longer obligated to pay Debt Service under the terms of the PPA-2.

(b) The Additional Units PPA-2 Participant shall be obligated to pay its Obligation Share of the Plant Vogtle Additional Units PPA-2 Project Annual Costs, other than Debt Service (subject to the exception set forth in subpart (a) hereof), during the entirety of the Initial Term. However, such liability shall be discharged to the extent that the Authority receives payment from the Buyer pursuant to the PPA-2, which obligates Buyer to pay the entirety of such costs for the following periods: as to the first Additional

Unit, for twenty years following the Commercial Operation Date of such unit; and, as to the second Additional Unit, for twenty years following the Commercial Operation Date of such unit.

(c) Except as provided herein, the Additional Units PPA-2 Participant is not entitled to receive its Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest during the Initial Term. Provided, however, that the Additional Units PPA-2 Participant shall be entitled to receive its Obligation Share of the output and services of that portion of the first of the Additional Units included in the PPA-2 Project during the period commencing on the twentieth anniversary of the Commercial Operation Date of such unit and continuing throughout the remainder of the Initial Term.

(d) Notwithstanding any other provision of this Contract, the Additional Units PPA-2 Participant shall be obligated to pay its Obligation Share of any Costs of Acquisition and Construction and any Plant Vogtle Additional Units PPA-2 Project Annual Costs that become due and owing during the Initial Term to the extent that such costs are not required to be paid for by the Buyer in accordance with the terms of the PPA-2.

SECTION 303. ADDITIONAL UNITS PPA-2 PARTICIPANT'S PAYMENT OBLIGATION AND ENTITLEMENT DURING THE FINAL TERM.

(a) The Additional Units PPA-2 Participant is entitled to receive its Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest during the entirety of the Final Term.

(b) The Additional Units PPA-2 Participant shall be liable for paying its Obligation Share of the Plant Vogtle Additional Units PPA-2 Project Annual Costs during the entirety of the Final Term.

SECTION 304. INTERCONNECTION ARRANGEMENTS.

(a) Capacity and energy supplied to the Additional Units PPA-2 Participant under this Contract shall constitute a supplemental resource for the Additional Units PPA-2 Participant's electric distribution system, and the Authority waives any further notice from the Additional Units PPA-2 Participant with respect to the acquisition of this supplemental resource.

(b) The Authority will purchase or provide generating capacity reserve service (if required), transmission service, maintenance service, emergency service, and other interchange service or ancillary service associated with the PPA-2 Project Entity's Ownership Interest as may be necessary for the reliable and economical supply of the output and services of the PPA-2 Project Entity's Ownership Interest. The Authority may also contract for such operating reserves as it determines to be needed. The parties agree that no participant interchange agreement shall be required with respect to this resource since this resource shall be scheduled by the Authority.

SECTION 305. INSURANCE.

The Authority shall maintain or cause to be maintained by the PPA-2 Project Entity or otherwise, as Costs of Acquisition and Construction or as Plant Vogtle Additional Units PPA-2 Project Annual Costs, such insurance with respect to the PPA-2 Project Entity's Ownership Interest as shall be available and as is usually carried by utilities constructing and operating nuclear generating facilities and such other insurance

as is usually carried by electric utilities in conformity with Prudent Utility Practice. Any payments under such insurance with respect to the Plant Vogtle Additional Units PPA-2 Project (a) to the extent received by the Authority, shall be subject to the lien of the PPA-2 Bond Resolution and (b) to the extent received by the PPA-2 Project Entity, shall be subject to the security interest and lien of the DOE Secured Parties described in Section 605 hereof and, in either such case, may be applied to rebuild or replace the applicable Additional Unit or to prepay the DOE Guaranteed Loan in accordance with the DOE Loan Documents prior to any distribution thereof by the PPA-2 Project Entity to the Authority.

SECTION 306. COSTS OF THE PLANT VOGTLE ADDITIONAL UNITS PPA-2 PROJECT.

(a) The Authority will determine all of the costs, exclusive of costs paid from the proceeds of PPA-2 Bonds or Advances, attributable to the Plant Vogtle Additional Units PPA-2 Project commencing with the first Power Supply Year, or such earlier time as the Authority shall determine, and such costs shall in the aggregate be equal to the Plant Vogtle Additional Units PPA-2 Project Annual Costs. The Authority is expressly authorized to bill some or all of the Debt Service costs which are payable during construction and prior to the Commercial Operation Date of any facility.

(b) The Plant Vogtle Additional Units PPA-2 Project Annual Costs for the generating and related facilities of the PPA-2 Project Entity's Ownership Interest shall include the following items of cost and expense:

(1) "Plant Vogtle Additional Units PPA-2 Project Annual Fixed Costs", which means all fixed costs allocable to the Plant Vogtle Additional Units PPA-2

Project incurred by the Authority or the PPA-2 Project Entity, including, but not limited to, and without duplication:

(A) Amounts that the Authority or the PPA-2 Project Entity is required to pay for taxes or payments in lieu thereof attributable to the PPA-2 Project Entity's Ownership Interest and/or Plant Vogtle Additional Units PPA-2 Project;

(B) Amounts required for renewals and replacements attributable to the PPA-2 Project Entity's Ownership Interest, or payment or deposit of such amounts into any reserve fund or account established for the Plant Vogtle Additional Units PPA-2 Project;

(C) Amounts to be set aside by the Authority or the PPA-2 Project Entity for the retirement from service or disposal of the facilities of the PPA-2 Project Entity's Ownership Interest;

(D) Amounts, if any, that must be paid by the Authority or the PPA-2 Project Entity for the purchase of generating capacity reserves for the PPA-2 Project Entity's Ownership Interest;

(E) Amounts that the Authority or the PPA-2 Project Entity is required under the PPA-2 Bond Resolution or the DOE Loan Documents to pay or deposit into any fund or account established by the PPA-2 Bond Resolution or the DOE Loan Documents for the payment of Debt Service on the PPA-2 Bonds or the DOE Guaranteed Loan, as applicable, and any reserve requirements for the PPA-2 Bonds or the DOE Guaranteed Loan, as applicable;

(F) Amounts (not otherwise included under any item of this Section 306(b)) for the Plant Vogtle Additional Units PPA-2 Project that the Authority or

the PPA-2 Project Entity is required under the PPA-2 Bond Resolution or the DOE Loan Documents, as applicable, to pay or deposit during any Power Supply Year into any other fund or account established by the PPA-2 Bond Resolution or the DOE Loan Documents, as applicable, or payment or deposit of such amounts into any such fund or account established outside the PPA-2 Bond Resolution or the DOE Loan Documents, as applicable;

(G) Amounts for payment or deposit into any fund or account outside the pledge of the PPA-2 Bond Resolution or the DOE Loan Documents attributable to costs or reserves of the Plant Vogtle Additional Units PPA-2 Project, including such amounts established by the Authority in the Plant Vogtle Additional Units PPA-2 Project Annual Budget to provide reasonable reserves for the payment of the PPA-2 Project Entity's share of costs required pursuant to either the Ownership Agreement or the Operating Agreement;

(H) Amounts for payment of Additional Costs (as that term is described and defined in Section 2.2 of the Development Agreement) incurred during any Power Supply Year and allocated to the PPA-2 Project Entity's Ownership Interest on the basis of the PPA-2 Project's percentage share of the Authority's Interest;

(I) Amounts for payment of any obligation that the Authority incurs under the PPA-2, including monetary judgments obtained by the Buyer against the Authority; and

(J) Without duplication, all fixed costs billed by the PPA-2 Project Entity to the Authority under the PPA-2 Project Entity Power Purchase Agreement other than such costs and expenses set forth in Section 306(b)(2) hereof.

(2) “Plant Vogtle Additional Units PPA-2 Project Other Annual Costs”, which means all Plant Vogtle Additional Units PPA-2 Project Annual Costs other than the Plant Vogtle Additional Units PPA-2 Project Annual Fixed Costs incurred by the Authority or the PPA-2 Project Entity, including, but not limited to, and without duplication:

(A) All costs of producing and delivering electric power and energy from the PPA-2 Project Entity’s Ownership Interest to the Additional Units PPA-2 Participants including, but not limited to, (i) Fuel Costs and other ordinary operation and maintenance costs and provisions for reserves therefor, administrative and general costs, insurance and overhead costs and any charges payable by the Authority or the PPA-2 Project Entity in connection with the output of the Plant Vogtle Additional Units PPA-2 Project, (ii) net costs of scheduled, emergency, economy or other interchange service as described in Section 304(b) hereof and incurred by the Authority or the PPA-2 Project Entity in connection with the Plant Vogtle Additional Units PPA-2 Project, (iii) working capital reasonably required for operation of the Plant Vogtle Additional Units PPA-2 Project, and (iv) a share, determined by the Authority to be allocable to the Plant Vogtle Additional Units PPA-2 Project, of all operation and maintenance costs related to the operation and conducting of the business of the Authority, including costs incurred in connection with reliability exchanges, salaries, fees for legal, engineering, and other services and all other expenses properly related to the conduct of the affairs of the Authority and all such costs incurred by the PPA-2 Project Entity;

(B) Amounts required to pay the costs of or to provide reserves for (i) extraordinary operating and maintenance costs including the costs of scheduled,

emergency or other interchange service and the prevention or correction of any unusual loss or damage to keep the facilities of the PPA-2 Project Entity's Ownership Interest in good operating condition or to prevent a loss of revenues therefrom, (ii) any major renewals, replacements, repairs, additions, betterments and improvements necessary, in the opinion of the Authority or the PPA-2 Project Entity, to keep the facilities of the PPA-2 Project Entity's Ownership Interest in good operating condition or to prevent a loss of revenues therefrom, and (iii) any major additions, improvements, repairs or modifications to any such facility, or any retirements or disposals of any such facility, required by any governmental agency having jurisdiction over the Additional Units or for which the PPA-2 Project Entity shall be responsible by virtue of any obligation of the PPA-2 Project Entity arising out of any contract to which the PPA-2 Project Entity may be a party relating to ownership of the Additional Units or any facility thereof to the extent that the Authority or the PPA-2 Project Entity is not reimbursed therefor from the proceeds of insurance or funds for such payments are not available to the Authority or the PPA-2 Project Entity therefor from any funds or accounts established by the Authority or by or on behalf of the PPA-2 Project Entity, or funds for such payment are not provided or to be provided by the issuance of PPA-2 Bonds pursuant to Article IV of this Contract; and

(C) Without duplication, all amounts other than fixed costs billed by the PPA-2 Project Entity to the Authority under the PPA-2 Project Entity Power Purchase Agreement.

SECTION 307. BILLING STATEMENT; PAYMENT OBLIGATIONS.

(a) The Authority shall bill the Additional Units PPA-2 Participant, consistent with Sections 302 and 303 hereof, each month during each Power Supply Year, in advance, by providing the Additional Units PPA-2 Participant with a Plant Vogtle Additional Units PPA-2 Project Billing Statement for such month for the Additional Units PPA-2 Participant's Obligation Share of Plant Vogtle Additional Units PPA-2 Project Annual Costs as set forth in Section 306 hereof. Such statement shall be paid by the Additional Units PPA-2 Participant on or before the 10th day from the date of such bill. Amounts due and not paid by the Additional Units PPA-2 Participant on or before said day shall bear an additional charge of one and one-half percent (1 ½%) per month for each month, or fraction thereof, until the amount due is paid in full. At the end of each Power Supply Year, adjustments of billing shall be made in accordance with Section 204 hereof.

(b) The Additional Units PPA-2 Participant shall pay its Obligation Share of Plant Vogtle Additional Units PPA-2 Project Annual Costs, consistent with Sections 302 and 303 hereof, whether or not the PPA-2 Project Entity's Ownership Interest is completed or is operating or operable, and whether or not its output is suspended, interrupted, interfered with, reduced or curtailed or terminated in whole or in part, and such payments shall not be subject to reduction, whether by offset or otherwise, and shall not be conditioned upon the performance or non-performance by any party of any agreement for any cause whatsoever. The Authority shall be obligated to pursue with reasonable diligence any valid claims against contracting parties as a result of any of the circumstances referenced in this subparagraph.

(c) The Additional Units PPA-2 Participant will establish, maintain and collect rates and charges for the electric service of its electric distribution system so as to provide revenues sufficient, together with available electric distribution system reserves, to enable the Additional Units PPA-2 Participant to pay to the Authority all amounts payable under this Contract, to pay all other amounts payable from and all lawful charges against or liens on the revenues of its electric distribution system, and to operate and maintain its electric distribution system in a sound, businesslike manner.

(d) The obligations of the Additional Units PPA-2 Participant to make the payments to the Authority under this Contract shall constitute general obligations of the Additional Units PPA-2 Participant for the payment of which the full faith and credit of the Additional Units PPA-2 Participant shall be and the same hereby is pledged to provide the funds required to fulfill all obligations arising under this Contract. Unless such payments or provisions for such payments shall have been made from the revenues of the electric system of the Additional Units PPA-2 Participant or from other funds thereof, the Additional Units PPA-2 Participant will annually in each and every fiscal year during the term of this Contract include in its general revenue or appropriation measure, whether or not any other items are included, sums sufficient to satisfy the payments required to be made in each year by this Contract until all payments required under this Contract have been paid in full. In the event for any reason any such provision or appropriation is not made for a fiscal year of the Additional Units PPA-2 Participant, then the chief fiscal officer of the Additional Units PPA-2 Participant shall, in accordance with the provisions of the Act in effect as of the Execution Date, set up as an appropriation on the accounts of the Additional Units PPA-2 Participant in each fiscal

year the amounts required to pay the obligations called for under this Contract. The amount of the appropriation in such fiscal year to meet the obligations of this Contract shall be due and payable and shall be expended for the purpose of paying and meeting the obligations provided under the terms and conditions of this Contract, and such appropriation shall have the same legal status as if the Additional Units PPA-2 Participant had included the amount of the appropriation in its general revenue or appropriation measure.

(e) The Additional Units PPA-2 Participant hereby agrees that amounts payable by the Additional Units PPA-2 Participant under this Contract shall be paid by the Additional Units PPA-2 Participant as a cost of purchased power and energy for the Additional Units PPA-2 Participant's electric distribution system and otherwise as an expense of operation and maintenance thereof.

SECTION 308. RATES AND CHARGES.

(a) Fixed Costs. The Additional Units PPA-2 Participant shall pay its Obligation Share of the Fixed Costs in accordance with Sections 302 and 303 hereof for each month of each Power Supply Year as set forth in the Plant Vogtle Additional Units PPA-2 Project Annual Budget or amended Plant Vogtle Additional Units PPA-2 Annual Budget for the respective month and reflected in the monthly Plant Vogtle Additional Units PPA-2 Project Billing Statement for the respective month.

(b) Other Costs. The Additional Units PPA-2 Participant shall pay its Obligation Share of the Other Costs in accordance with Sections 302 and 303 hereof in advance for each month of each Power Supply Year as set forth in the Plant Vogtle Additional Units PPA-2 Project Annual Budget or amended Plant Vogtle Additional

Units PPA-2 Project Annual Budget for the respective month and reflected in the monthly Plant Vogtle Additional Units PPA-2 Project Billing Statement for the respective month. In each monthly Plant Vogtle Additional Units PPA-2 Project Billing Statement the Authority may charge or credit the Additional Units PPA-2 Participant for any adjustment to the prior month's Plant Vogtle Additional Units PPA-2 Project Billing Statement required to reflect any other charge actually incurred during the respective prior month. The Other Costs may be expressed and billed as a charge per kWh of output from the Additional Units, in the discretion of the Authority.

(c) Credits to Additional Units PPA-2 Participant's Billings. Amounts resulting from the sale or other transactions of output and services of the generating facilities of the Plant Vogtle Additional Units PPA-2 Project during any period of this Contract that the Additional Units PPA-2 Participant is entitled to receive its Obligation Share of output and services, except for transactions entered into pursuant to Section 310 hereof, shall be credited to the Additional Units PPA-2 Participant's obligations to pay Plant Vogtle Additional Units PPA-2 Project Annual Costs in the proportion of the Additional Units PPA-2 Participant's respective Plant Vogtle Additional Units PPA-2 Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest. In the event that any such amounts remain uncredited as of the end of the next succeeding Power Supply Year, such uncredited amounts shall be paid to the Additional Units PPA-2 Participant within thirty (30) days thereafter.

SECTION 309. PLEDGE OF PAYMENTS.

All payments required to be made by the Additional Units PPA-2 Participant pursuant to this Contract attributable to the Plant Vogtle Additional Units PPA-2 Project

or to the Plant Vogtle Additional Units PPA-2 Project Annual Costs, and any or all rights to collection or enforcement of such payments, may be pledged to secure the payment of the Authority's PPA-2 Bonds and the DOE Secured Obligations.

SECTION 310. SALE OF EXCESS ADDITIONAL UNITS PPA-2 PARTICIPANT'S OBLIGATION SHARE.

(a) Consistent with Sections 302 and 303 hereof, in the event the Additional Units PPA-2 Participant determines that all or any portion of its Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest to which it is entitled is in excess of its needs, the Additional Units PPA-2 Participant may request the Authority to sell and transfer for any period of time such excess output and services on terms and conditions proposed by the selling Additional Units PPA-2 Participant. Such excess shall first be offered to the non-selling Additional Units PPA-2 Participants on terms that may require, at the option of the selling party, that the excess may be purchased in its entirety on such stated terms and conditions. In the event the non-selling Additional Units PPA-2 Participants elect not to purchase the entire amount of such excess in accordance with the stated terms and conditions, the Authority may dispose of such excess by sale to other utilities on such stated terms and conditions.

(b) If all or any portion of such excess of the Additional Units PPA-2 Participant's Obligation Share of output and services is sold pursuant to this Section, the Additional Units PPA-2 Participant's Obligation Share shall not be reduced, and the Additional Units PPA-2 Participant shall remain liable to the Authority to pay the full amount of its Billing Statement as if such sale had not been made; except that such liability shall be discharged to the extent that the Authority shall receive payment for such excess output and services from the purchaser or purchasers thereof.

SECTION 311. ALLOCATION OF PREMIUM PAYMENTS.

Any additional compensation payment (“Premium Payment”), that the Buyer is committed to make pursuant to Section 203 of the PPA-2 shall be placed by the Authority in a reserve fund for the purpose of either reducing the Additional Units PPA-2 Participant’s Obligation Share of Other Costs following the expiration of the term of the PPA-2 or satisfying any payment obligations of the Additional Units PPA-2 Participant which it incurs pursuant to this Contract during the term of the PPA-2. Such funds shall be allocated among the Additional Units PPA-2 Participants on a pro rata basis reflecting each Additional Units PPA-2 Participant’s Obligation Share and shall not be included in the pledge in favor of the bondholders to secure the payment of the Authority’s PPA-2 Bonds or the pledge in favor of the DOE Secured Parties to secure the payment of the DOE Secured Obligations.

ARTICLE IV BONDS AND DOE GUARANTEED LOAN

SECTION 401. ISSUANCE OF PPA-2 BONDS AND MAKING OF ADVANCES.

(a) The Authority may sell and issue PPA-2 Bonds, and may cause the PPA-2 Project Entity to draw upon the DOE Guaranteed Loan in accordance with the provisions of the PPA-2 Bond Resolution and the DOE Loan Documents, respectively, at any time and from time to time to finance Costs of Acquisition and Construction and Financing Costs, including without limitation, the issuance of PPA-2 Bonds to pay the costs of (i) any major renewals, replacements, repairs, additions, betterments, or improvements to the PPA-2 Project Entity’s Ownership Interest necessary, in the opinion of the Authority or the PPA-2 Project Entity, to keep the PPA-2 Project Entity’s Ownership Interest in good

operating condition or to prevent a loss of revenues therefrom, including spent fuel storage facilities, (ii) any major additions, improvements, repairs, or modifications to the PPA-2 Project Entity's Ownership Interest or any retirements or disposals or decommissioning of the PPA-2 Project Entity's Ownership Interest required by any governmental agency having jurisdiction over the Plant Vogtle Additional Units PPA-2 Project or for which the Authority or the PPA-2 Project Entity shall be responsible by virtue of any obligation of the Authority or the PPA-2 Project Entity arising out of any contract to which the Authority or the PPA-2 Project Entity may be a party relating to ownership of the PPA-2 Project Entity's Ownership Interest or any facility thereof, or (iii) additional Fuel inventory for each facility of the PPA-2 Project Entity's Ownership Interest in any Power Supply Year to the extent that sufficient funds are not available in any reserves established by the Authority or the PPA-2 Project Entity for Fuel Costs; provided, however, that no such PPA-2 Bonds may be issued or Advances made for the purpose of adding additional generating units to the Plant Vogtle Additional Units PPA-2 Project.

(b) Any PPA-2 Bonds and the DOE Guaranteed Loan may be secured by assignment of all payments attributable to the Plant Vogtle Additional Units PPA-2 Project or the Plant Vogtle Additional Units PPA-2 Project Annual Costs to be made in accordance with or pursuant to the provisions of this Contract and all other Contracts, as such payments may be increased and extended by reason of the issuance of such PPA-2 Bonds or the making of additional Advances, and such PPA-2 Bonds may be issued and such Advances may be made in amounts sufficient to pay the full amount of such costs

and sufficient to provide such reserves as may be reasonably determined by the Authority or the PPA-2 Project Entity to be desirable.

SECTION 402. ISSUANCE OF REFUNDING BONDS.

In the event it shall be advantageous, in the opinion of the Authority, to refund any PPA-2 Bonds or prepay any portion of the principal of the DOE Guaranteed Loan, the Authority may issue and sell refunding PPA-2 Bonds which may be secured by assignment of all payments attributable to the Plant Vogtle Additional Units PPA-2 Project or the Plant Vogtle Additional Units PPA-2 Project Annual Costs to be made in accordance with or pursuant to the provisions of this Contract and all other Contracts.

SECTION 403. ADJUSTMENT OF THE PLANT VOGTLE ADDITIONAL UNITS PPA-2 PROJECT ANNUAL COSTS.

In the event the proceeds derived from the sale of any PPA-2 Bonds (including by reimbursement from the PPA-2 Project Entity to the Authority from proceeds of Advances) exceed the aggregate amount required for the purposes for which such PPA-2 Bonds were issued, the amount of such excess attributable to the issuance of PPA-2 Bonds shall be used to make up any deficiency then existing in any fund or account under the PPA-2 Bond Resolution in the manner therein provided, and any balance shall be used (a) to retire by purchase, redemption or defeasance PPA-2 Bonds in advance of maturity or (b) to retire by prepayment Advances in advance of maturity, in each such case, in such manner as the Authority may determine. In any such case, the Authority agrees to use its best efforts to equitably apportion the Debt Service savings resulting from the prepayments of Advances and/or redemption of PPA-2 Bonds both during the PPA-2 Term and during the term of this Agreement. In all such events, the Authority

will reduce such elements of the Plant Vogtle Additional Units PPA-2 Project Annual Costs as are necessary and appropriate to reflect such accelerated retirement.

ARTICLE V DEFAULT

SECTION 501. EVENT OF DEFAULT.

Failure of the Additional Units PPA-2 Participant to make to the Authority any of the payments for which provision is made in this Contract shall constitute a default on the part of the Additional Units PPA-2 Participant.

SECTION 502. CONTINUING OBLIGATION, RIGHT TO DISCONTINUE SERVICE.

In the event of any such default, the Additional Units PPA-2 Participant shall not be relieved of its liability for payment of the amounts in default, and the Authority shall have the right and obligation to exercise its best efforts to recover from the Additional Units PPA-2 Participant any amount in default. In enforcement of any such right of recovery, the Authority may bring any suit, action, or proceeding in law or in equity, including, without limitation, mandamus and action for specific performance, as may be necessary or appropriate to enforce any covenant, agreement, or obligation to make payment for which provision is made in this Contract against the Additional Units PPA-2 Participant, and the Authority may, upon sixty (60) days' written notice to the Additional Units PPA-2 Participant, cease and discontinue providing service under this Contract. If the default continues for a period in excess of 180 days or if a non-defaulting Additional Units PPA-2 Participant exercises its right of first refusal to purchase a pro rata share of such defaulting Additional Units PPA-2 Participant's Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest, whichever event first occurs,

the Authority may, at its discretion, permanently discontinue service to the defaulting Additional Units PPA-2 Participant. Additionally, the defaulting Additional Units PPA-2 Participant expressly waives any claim to interest payments recovered by the Authority pursuant to Section 307(a) hereof as the result of the default of said Additional Units PPA-2 Participant.

SECTION 503. LEVY OF TAX FOR PAYMENT.

In the event of such default by the Additional Units PPA-2 Participant, the Additional Units PPA-2 Participant shall provide for the assessment and collection of an annual tax sufficient to provide funds annually to make all payments due under the provisions of this Contract in each year over the remainder of the life of this Contract and the Authority shall have the right to bring any suit, action or proceeding in law or in equity, including, without limitation, mandamus and action for specific performance, to enforce the assessment and collection of a continuing direct annual tax upon all the taxable property within the boundaries of such Additional Units PPA-2 Participant sufficient in amount to provide such funds annually in each year of the remainder of the life of this Contract.

SECTION 504. OTHER DEFAULT BY ADDITIONAL UNITS PPA-2 PARTICIPANT.

In the event of a failure of the Additional Units PPA-2 Participant to establish, maintain, or collect rates or charges adequate to provide revenues sufficient to enable the Additional Units PPA-2 Participant to pay all amounts due to the Authority under this Contract, or in the event of any default by the Additional Units PPA-2 Participant under any other covenant, agreement or obligation of this Contract, the Authority may bring any suit, action, or proceeding in law or in equity, including, without limitation,

mandamus, injunction and action for specific performance, as may be necessary or appropriate to enforce any covenant, agreement or obligation of this Contract against the Additional Units PPA-2 Participant.

SECTION 505. DEFAULT BY AUTHORITY.

In the event of any default by the Authority under any covenant, agreement or obligation of this Contract, the Additional Units PPA-2 Participant may bring any suit, action, or proceeding in law or in equity, including, without limitation, mandamus, injunction and action for specific performance, as may be necessary or appropriate to enforce any covenant, agreement, or obligation of this Contract against the Authority.

SECTION 506. ABANDONMENT OF REMEDY.

In case any proceeding taken on account of any default shall have been discontinued or abandoned for any reason, the parties to such proceeding shall be restored to their former positions and rights hereunder, respectively, and all rights, remedies, powers and duties of the Authority and the Additional Units PPA-2 Participant shall continue as though no such proceedings had been taken.

SECTION 507. DEFAULT OF OTHER ADDITIONAL UNITS PPA-2 PARTICIPANTS.

(a) In the event of a default by an Additional Units PPA-2 Participant and discontinuance of service pursuant to Section 502 hereof or of the other Contracts to such defaulting Additional Units PPA-2 Participant, the Authority shall first offer to transfer to all other non-defaulting Additional Units PPA-2 Participants a pro rata portion (determined pursuant to the formula set forth in Section 508 hereof) of the defaulting Additional Units PPA-2 Participant's Obligation Share which shall have been discontinued by reason of such default. Any portion of such Obligation Share of a

defaulting Additional Units PPA-2 Participant which shall be declined by any non-defaulting Additional Units PPA-2 Participant shall be reoffered pro rata to the non-defaulting Additional Units PPA-2 Participants which have accepted in full the first such offer. Such reoffering shall be repeated until such defaulting Additional Units PPA-2 Participant's Obligation Share shall have been reallocated in full or until all non-defaulting Additional Units PPA-2 Participants shall have declined to take any additional portion of such defaulting Additional Units PPA-2 Participant's Obligation Share.

(b) In the event less than all of a defaulting Additional Units PPA-2 Participant's Obligation Share shall be accepted pursuant to subsection (a) of this Section by the non-defaulting Additional Units PPA-2 Participants, the Authority shall use its reasonable best efforts to sell the remaining portion of a defaulting Additional Units PPA-2 Participant's Obligation Share for the remaining term of such defaulting Additional Units PPA-2 Participant's Contract to any person, firm, association or corporation, public or private; provided, however, that the Authority shall make no such sales in such amounts, for such periods of time and under such terms and conditions as will adversely affect the tax exempt status of PPA-2 Bonds intended to be tax exempt. The agreement for such sale shall contain such terms and conditions as will not adversely affect the security for the PPA-2 Bonds and the DOE Secured Obligations afforded by the Contract of such defaulting Additional Units PPA-2 Participant, including provisions of the discontinuance of service upon default, and as are otherwise acceptable to the Authority. In the event of default and discontinuance of service under such agreement, the Obligation Share sold pursuant to such agreement shall be offered and transferred as provided for defaulting Additional Units PPA-2 Participants in this Section.

(c) In the event that less than all of a defaulting Additional Units PPA-2 Participant's Obligation Share shall be accepted pursuant to subsection (a) of this Section by the non-defaulting Additional Units PPA-2 Participants or sold pursuant to subsection (b) of this Section, the Authority shall transfer, on a pro rata basis (based on the respective original Obligation Shares of the Additional Units PPA-2 Participants), to all other non-defaulting Additional Units PPA-2 Participants the remaining portion of such defaulting Additional Units PPA-2 Participant's Obligation Share, subject to the limitations specified in subsection (d) of this Section.

(d) Any portion of the Obligation Share of a defaulting Additional Units PPA-2 Participant transferred pursuant to this Section to a non-defaulting Additional Units PPA-2 Participant shall become a part of and shall be added to the Obligation Share of each transferee Additional Units PPA-2 Participant, and the transferee Additional Units PPA-2 Participant shall be obligated to pay for its Obligation Share, increased as aforesaid, as if the Obligation Share of the transferee Additional Units PPA-2 Participant, increased as aforesaid, had been stated originally as the Obligation Share of the transferee Additional Units PPA-2 Participant in its Contract; provided, however, that in no event shall any transfer of any part of a defaulting Additional Units PPA-2 Participant's Obligation Share pursuant to subsection (c) of this Section result in a transferee Additional Units PPA-2 Participant having an Obligation Share (excluding transfers to such transferee Additional Units PPA-2 Participant pursuant to subsection (a) of this Section) in excess of 130% of its Obligation Share in effect on the Execution Date, as specified on Attachment B hereto.

(e) In the event that less than all of a defaulting Additional Units PPA-2 Participant's Obligation Share shall be sold or transferred to non-defaulting Additional Units PPA-2 Participants pursuant to this Section, the Authority shall use its reasonable best efforts to sell the remaining portion of a defaulting Additional Units PPA-2 Participant's Obligation Share or the energy associated therewith on such terms and conditions as are acceptable to the Authority to any person, firm, association or corporation, public or private; provided, however, that the Authority shall make no such sales in such amounts, for such periods of time and under such terms and conditions as will adversely affect the tax exempt status of PPA-2 Bonds intended to be tax exempt. A defaulting Additional Units PPA-2 Participant shall remain liable under its Power Sales Contract in all events, except that the obligation of the defaulting Additional Units PPA-2 Participant to pay the Authority shall be reduced to the extent that payment shall be received by the Authority for that portion of a defaulting Additional Units PPA-2 Participant's Obligation Share transferred or sold pursuant to this Section.

SECTION 508. ADDITIONAL UNITS PPA-2 PARTICIPANT'S RIGHTS OF FIRST REFUSAL.

(a) In the event the Buyer defaults in connection with any of its payment obligations under the PPA-2 and the Authority permanently discontinues service pursuant to the terms of the PPA-2, each Additional Units PPA-2 Participant shall have a right of first refusal to purchase a pro rata amount of such defaulting Buyer's Obligation Share (as defined in the PPA-2) of the output and services of the PPA-2 Project Entity's Ownership Share for the period of time that service is discontinued to the defaulting Buyer. The pro rata amount of each Additional Units PPA-2 Participant's right of first refusal shall be equal to its Obligation Share. Any portion of the Buyer's Obligation

Share which shall be declined by an Additional Units PPA-2 Participant shall be reoffered pro rata to the Additional Units PPA-2 Participants which have accepted in full the first such offer. Such reoffering shall be repeated until such defaulting Buyer's Obligation Share shall have been reallocated in full or until all Additional Units PPA-2 Participants shall have declined to take any additional portion of such defaulting Buyer's Obligation Share.

In the event that less than all of a defaulting Buyer's Obligation Share shall be accepted pursuant to this section, the right of first refusal provided for herein to each Additional Units PPA-2 Participant shall be considered null and void and the Authority shall use its reasonable best efforts to sell Buyer's Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest for the period of time that such service is discontinued. The net proceeds resulting from any sale to a third party will first be credited to Buyer's Obligation Share of Plant Vogtle Additional Units PPA-2 Project Annual Costs, exclusive of Debt Service and reserves required under the PPA-2 Bond Resolution and the DOE Loan Documents, and any remaining net proceeds will then be applied to Buyer's Obligation Share of Debt Service and reserves required under the PPA-2 Bond Resolution and the DOE Loan Documents in the manner provided in the PPA-2 Bond Resolution and the DOE Loan Documents.

(b) In the event that the Authority permanently discontinues service under any Contract to a defaulting Additional Units PPA-2 Participant pursuant to Section 502 thereof, each non-defaulting Additional Units PPA-2 Participant shall have a right of first refusal to purchase a pro rata amount of such defaulting Additional Units PPA-2 Participant's Obligation Share of the output and services of the PPA-2 Project Entity's

Ownership Interest for the period of time that service is discontinued to the defaulting Additional Units PPA-2 Participant. The pro rata amount of each non-defaulting Additional Units PPA-2 Participant's right of first refusal shall be determined as follows: the non-defaulting Additional Units PPA-2 Participant's Obligation Share of the output and services of the PPA-2 Project Entity's Ownership Interest divided by the sum of all Obligation Shares of the output and services of the PPA-2 Project Entity's Ownership Interest of the non-defaulting Additional Units PPA-2 Participants electing to exercise their right of first refusal.

ARTICLE VI SERVICE

SECTION 601. CHARACTER AND CONTINUITY OF SERVICE.

(a) The Authority or the PPA-2 Project Entity may temporarily interrupt, increase or reduce deliveries of electric energy from the Plant Vogtle Additional Units PPA-2 Project if the Authority or the PPA-2 Project Entity or its respective agent determines that such interruption, increase or reduction is necessary in case of emergencies. The Authority or the PPA-2 Project Entity or its respective agent may also interrupt or reduce deliveries of electric energy from the Plant Vogtle Additional Units PPA-2 Project in order to install equipment in or make repairs to or replacements, investigations, and inspections of or to perform other maintenance work on its generation or transmission facilities and related apparatuses (planned interruptions). After informing the Additional Units PPA-2 Participant regarding any such planned interruption or reduction, giving the reason therefor, and stating the probable duration thereof, the Authority will to the best of its ability schedule, or cause the PPA-2 Project Entity to

schedule, such interruption or reduction at a time which will cause the least interference with the operations of the Plant Vogtle Additional Units PPA-2 Project.

(b) The Authority shall not be required to provide, or be liable for failure to provide, service under this Contract when such failure or the cessation or curtailment of or interference with the service is caused by Uncontrollable Forces.

SECTION 602. METERING.

(a) The Authority reserves the right to provide for installation of meters and will provide or cause to be provided all necessary metering equipment for determining the quantity and conditions of the supply of electric power and energy delivered by the Authority under this Contract; provided, however, that the Additional Units PPA-2 Participant may at its own cost install additional metering equipment to provide a check on that of the Authority.

(b) If any meter used for billing fails to register or is found to be inaccurate, the Authority shall repair or replace such meter or cause it to be repaired or replaced, and the appropriate billing shall be made to the Additional Units PPA-2 Participant by the Authority based upon the best information available for the period, not exceeding sixty (60) days, during which no metering occurred. Any meter tested and found to be not more than two percent (2%) above or below normal shall be considered accurate insofar as correction of billings is concerned. If, as the result of any test, a meter is found to register in excess of two percent (2%) above or below normal then the reading of such meter previously taken for billing purposes shall be corrected for the period during which it is established the meter was inaccurate, but no correction shall be made for any period beyond sixty (60) days prior to the date on which an inaccuracy is discovered by such

test. The Additional Units PPA-2 Participant shall have reasonable access to read and monitor the meter.

SECTION 603. POWER DELIVERIES.

Power and energy furnished to the Additional Units PPA-2 Participant under this Contract shall be in the form of three phase current, alternating at a frequency of approximately 60 Hertz.

SECTION 604. OTHER TERMS AND CONDITIONS.

Service hereunder shall be in accordance with such other terms and conditions as are established as part of the Authority's service rules and regulations, which shall not be inconsistent with the provisions of this Contract.

SECTION 605. DOE GUARANTEED LOAN ARRANGEMENTS.

(a) The Additional Units PPA-2 Participant acknowledges and agrees that, in connection with the entry into the DOE Loan Documents, the Authority will transfer the PPA-2 Project Portion of the Authority's Interest to the PPA-2 Project Entity, the Authority's wholly-owned, special-purpose direct subsidiary. In connection with this transfer, the Authority will enter into the PPA-2 Project Entity Power Purchase Agreement with the PPA-2 Project Entity pursuant to which the Authority will purchase the output of the PPA-2 Project Entity's Ownership Interest for resale to Buyer under the PPA-2 and to the Additional Units PPA-2 Participants under the Contracts during the respective terms of the PPA-2 and the Contracts.

(b) The Additional Units PPA-2 Participant acknowledges and agrees that (i) the Authority may grant a first-priority security interest in and lien on its ownership interest in the PPA-2 Project Entity, and (ii) the PPA-2 Project Entity may grant a first-

priority security interest in and lien on all of its assets, including its undivided ownership interest in the Additional Units, and on its right, title and interest in, to and under the PPA-2 Project Entity Power Purchase Agreement and the Project Agreements, in each such case, to secure the DOE Secured Obligations under the DOE Loan Documents and the DOE Guaranteed Loan.

ARTICLE VII MISCELLANEOUS PROVISIONS

SECTION 701. LIABILITY OF PARTIES.

The Authority and the Additional Units PPA-2 Participant shall assume full responsibility and liability for the maintenance and operation of their respective properties and each shall indemnify and save harmless the other from all liability and expense on account of any and all damages, claims, or actions, including injury to or death of persons arising from any act or accident in connection with the installation, presence, maintenance and operation of the property and equipment of the indemnifying party and not caused in whole or in part by the negligence of the other party; provided that any liability which is incurred by the Authority through the operation and maintenance of the Plant Vogtle Additional Units PPA-2 Project and not covered, or not covered sufficiently, by insurance shall be paid solely from the revenues of the Authority, and any payments made by the Authority to satisfy such liability shall become part of the Plant Vogtle Additional Units PPA-2 Project Annual Costs.

SECTION 702. ASSIGNMENT OF CONTRACT.

(a) This Contract shall inure to the benefit of and shall be binding upon the respective successors and assigns of the parties to this Contract which may only be

assigned as specifically authorized herein. This Contract and the Additional Units PPA-2 Participant's rights and obligations hereunder may be assigned, either in whole or in part, by the Additional Units PPA-2 Participant to any other Additional Units PPA-2 Participant or, if such assignment will not adversely affect, in the sole opinion of the Authority, (a) the exclusion from gross income for federal income tax purposes of the interest on the PPA-2 Bonds of any series the interest on which is intended to be so excluded or (b) the eligibility of the Authority to receive cash subsidy payments from the United States Treasury equal to a portion of the interest payable on any Build America Bonds, to another third party if such Participant or other third party (i) meets the minimum credit rating established by the Authority for Additional Units PPA-2 Participants, and (ii) is acceptable to the bond insurers or other credit providers for the Authority's PPA-2 Bonds and to DOE. Any assignee of the Additional Units PPA-2 Participant shall specifically assume in writing the Additional Units PPA-2 Participant's obligations under this Contract with respect to the rights transferred, and the Additional Units PPA-2 Participant shall remain contingently liable therefor.

(b) The Additional Units PPA-2 Participant acknowledges and agrees that the Authority may assign and pledge to the Trustee designated in the PPA-2 Bond Resolution, for the benefit of the DOE Collateral Agent, DOE and the other secured parties identified therein, all its right, title and interest in and to all payments to be made to the Authority under the provisions of this Contract attributable to the Plant Vogtle Additional Units PPA-2 Project or to the Plant Vogtle Additional Units PPA-2 Project Annual Costs as security for the payment of amounts due and payable and other obligations under, or secured by, the PPA-2 Bond Resolution (including as security for

amounts owed by the PPA-2 Project Entity under the DOE Loan Documents), and, following the execution of such assignment and pledge, upon the occurrence and continuance of a Bondholders' Event of Default or a Federal Loan Event of Default under (and as each such term is defined in) the PPA-2 Bond Resolution, the Trustee shall have all rights and remedies herein provided to the Authority, including to make all demands, give all notices, take all actions (including collection action) and exercise all rights on behalf or in the place of the Authority. The Trustee and the PPA-2 Project Entity each shall be a third-party beneficiary of the covenants and agreements of the Additional Units PPA-2 Participant herein contained.

(c) The Additional Units PPA-2 Participant (i) has received no written notice of any previous assignment by the Authority of all or any part of its rights under this Contract and (ii) except as set forth in Section 702(b) hereof, has not consented to any previous assignment by the Authority of all or any part of its rights under this Contract.

(d) Except as permitted by Section 702(b) hereof, this Contract may not be assigned by the Authority without the prior written consent of the DOE Collateral Agent.

SECTION 703. TERMINATION OR AMENDMENT OF CONTRACT.

(a) Subject to Section 101 hereof, this Contract shall not be terminated by either party under any circumstances, whether based upon the default of the other party under this Contract or any other instrument or otherwise except as specifically provided in this Contract.

(b) This Contract, on which purchasers of PPA-2 Bonds, DOE and FFB and/or the Other Lenders shall have relied as an inducement to purchase and hold the PPA-2 Bonds, to guarantee the DOE Guaranteed Loan and to make the DOE Guaranteed

Loan, respectively, shall not be amended, modified, or otherwise altered in any manner except as provided in this Contract. So long as any of the PPA-2 Bonds or the DOE Secured Obligations are outstanding or until adequate provisions for the payment thereof have been made in accordance with the provisions of the PPA-2 Bond Resolution and the DOE Loan Documents, respectively, this Contract shall not be amended, modified, or otherwise altered in any manner which will reduce the payments pledged as security for the Debt Service on all the PPA-2 Bonds and as security for the DOE Secured Obligations or extend the time of such payments provided herein or adversely impact, in the opinion of the Authority, the tax exempt status of the PPA-2 Bonds, or which will in any manner impair or adversely affect the rights of the owners from time to time of the PPA-2 Bonds or the rights of the Buyer during the PPA-2 Term or the rights of the DOE Secured Parties pursuant to the DOE Loan Documents. Subject to the foregoing and any other limitations contained in the PPA-2 Bond Resolution or the DOE Loan Documents, any amendment of this Contract must be in writing and duly executed by both the Authority and the Additional Units PPA-2 Participant.

SECTION 704. SEVERABILITY.

In case any one or more of the provisions of this Contract shall for any reason be held to be illegal or invalid by a court of competent jurisdiction, it is the intention of each of the parties hereto that such illegality or invalidity shall not affect any other provision hereof, but this Contract shall be construed and enforced as if such illegal or invalid provision had not been contained herein, and this Contract shall be construed to adopt, but not to enlarge upon, all of the applicable provisions of said Act, and all the applicable provisions of the Constitution and general laws of Georgia, and, if any provisions hereof

conflict with any applicable provision of said Constitution or laws, the former as proposed by the legislature, approved by the people of the State of Georgia and interpreted by the courts of the State of Georgia, and the latter as adopted by the legislature and as interpreted by the courts of the State of Georgia, shall prevail in lieu of any provision hereof in conflict or not in harmony therewith.

SECTION 705. GOVERNING LAW.

This Contract shall be governed by, and construed in accordance with, the laws of the State of Georgia.

SECTION 706. DULY AUTHORIZED SIGNATORIES; BINDING EFFECT OF EXECUTION.

The Authority as to its signatory and the Additional Units PPA-2 Participant as to its signatory hereby represents and warrants that the person executing this Contract on its respective behalf is duly authorized to do so, and that, by such execution, such party is hereby duly and lawfully bound by this Contract.

IN WITNESS WHEREOF, the Municipal Electric Authority of Georgia has caused this Contract to be executed in its corporate name by its duly authorized officers and, by the execution hereof it is acknowledged that payments made under this Contract may be assigned, as provided in Section 309 hereof, and the Authority has caused its corporate seal to be hereunto impressed and attested; the Additional Units PPA-2 Participant has caused this Contract to be executed in its corporate name by its duly authorized officers and its corporate seal to be hereunto impressed and attested, and delivery hereof by the Authority to the Additional Units PPA-2 Participant is hereby acknowledged, all as of the day and year first above written.

(1) The term thereof (as provided in Section 101 thereof) shall be and be deemed to have been extended to the date that is fifty (50) years following the Execution Date of the Contract.

(2) Section 102 of the Original Contract shall be amended to add thereto, in the appropriate alphabetical order, a definition of “Build America Bonds,” to read as follows:

(3) The first sentence of Section 206 of the Original Contract shall be amended to read as follows (with additions being indicated by double-underscoring):

So long as the Authority has tax exempt PPA-2 Bonds or Build America Bonds outstanding, the Additional Units PPA-2 Participant agrees that it shall not, without the express written consent of the Authority, enter into any contract pursuant to which a non-exempt person agrees to purchase power produced by the Plant Vogtle Additional Units PPA-2 Project in a manner that results in private business use within the meaning of the Internal Revenue Code of 1986, as amended, modified or re-enacted (or any successor thereto) (the "Code").

(4) The first sentence of Section 207 of the Original Contract shall be amended to read as follows (with additions being indicated by double-underscoring):

The Additional Units PPA-2 Participant hereby covenants that it shall take no action, nor shall it consent to or approve the taking of any action, that would in the opinion of the Authority adversely affect (a) the exclusion from gross income for federal income tax purposes of the interest on the PPA-2 Bonds of any series the interest on which is intended to be so excluded or (b) the eligibility of the Authority to receive cash subsidy payments from the United

States Treasury equal to a portion of the interest payable on any Build America Bonds.

This Contract and the Additional Units PPA-2 Participant's rights and obligations hereunder may be assigned, either in whole or in part, by the Additional Units PPA-2 Participant to any other Additional Units PPA-2 Participant or, if such assignment will not adversely affect, in the sole opinion of the Authority, ~~the tax exempt status of the Authority's outstanding PPA-2 Bonds~~ (a) the exclusion from gross income for federal income tax purposes of the interest on the PPA-2 Bonds of any series the interest on which is intended to be so excluded or (b) the eligibility of the Authority to receive cash subsidy payments from the United States Treasury equal to a portion of the interest payable on any Build America Bonds, to another third party if such Participant or other third party (i) meets the minimum credit rating established by the Authority for Additional Units PPA-2 Participants, and (ii) is acceptable to the bond insurers or other credit providers for the Authority's PPA-2 Bonds.
