Reason for the Nomination

Using the program criteria, explain in detail why the employee deserves to be recognized as the *Strongest Link in the Chain*. Use a separate sheet if necessary.

In the short time since joining the City of Griffin team, Ms. Perez has taken on the responsibility of integrating the HiperWeb work order system into the Stormwater Division operations. Using her understanding of Geographic Information Systems (GIS), she embraced the challenge of learning about the whole Division's operations and went about identifying the needs of different members of the team and explaining them to the outside contractors, who then used this input to improve the system to work better for our purposes. She then turned around and helped her fellow employees implement these changes. Ms. Perez's initiative has led her to undertake responsibilities beyond her job description and she has performed over and above expectations.
